NON-CONFORMANCE, CORRECTIVE ACTION AND CLEARANCE REPORT

SANAS No.: **T1195**

Organisation Name: **Azuresky Laboratory**

NC Report Number: **AB12**

Area/Scope Assessed: **Management Requirements**

Assessor / Inspector / Expert: **A. Bougart**

PART 1: DETAILED OBSERVATION

At the time of the assessment, it was observed that Document ASFM 8.6 point 6 states that all identified improvement opportunities shall be recorded on management review action register, but the register on the minutes did not have responsible persons and due dates e.g action 2 and action 13.

PART 2: ROOT CAUSE ANALYSIS

(Provide an analysis of the extent and cause of the nonconformity)

Incomplete documentation of the management review action register, attributed to a gap in the documented procedure which did not require a completeness check prior to sign-off

PART 3: CORRECTIVE ACTION TAKEN

(Clearly indicate what corrective action was taken, and attach supportig evidence of implementation)

* memo was issued to all lab personnel informing them of the updated requirements of document ASMF 8.6
* Document ASMF 8.6

Problem statement: During the time of assessment, it was observed that the management review action register did not contain responsible persons and due dates, despite ASMF 8.6.6 stating that all identified improvement opportunities shall be recorded on management review action register.

Why one: why did the management review action register not contain responsible persons and due dates?

Personnel were unsure of the responsible persons and due dates of the specific tasks / action items and did not complete those fields on the management review action register.

Why two: why were the incomplete fields not identified before the register was signed off?

The existing procedure - ASMF 8.6 - did not include a requirement to verify that responsible persons and target completion dates were completed prior to sign-off, resulting in the incomple register being accepted without detection.

6. Identification and Logging of Improvements

• During the management review meeting, improvement opportunities shall be identified from analysis of the inputs listed above (e.g. audit findings, performance trends, complaints, risk assessments, and resource evaluations).

• All identified improvement opportunities shall be recorded in the Management Review Minutes and entered into a Management Review Action Register or equivalent controlled record.

• Each improvement action shall include:

– a clear description of the improvement required,

– the source of the improvement (e.g. audit result, complaint, trend analysis),

– the responsible person,

– a target completion date, and

– the method for verifying effectiveness.

• Progress on logged improvement actions shall be reviewed at subsequent management review meetings or during routine management system monitoring.

ADDED (to address decisions and effectiveness of the management system):

• Management review outputs shall include decisions and actions related to:

– improvement of the effectiveness of the management system,

– improvement of laboratory activities, and

– resource needs.

• Conclusions on the continued suitability, adequacy, and effectiveness of the management system shall be recorded in the Management Review Minutes.

7. Records

• The Laboratory Supervisor/Manager shall prepare Management Review Minutes/Reports documenting discussions, decisions, identified improvements, actions, responsible persons, and deadlines.

• A Management Review Action Register (or equivalent) shall be maintained as evidence
