sanas South African National Accreditation System

NON-CONFORMANCE, CORRECTIVE ACTION AND CLEARANCE REPORT

SANAS No.: **T1195**

Organisation Name: **Azuresky Laboratory**

NC Report Number: **AB19**

Area/Scope Assessed: **Management Requirements**

Assessor / Inspector / Expert: **A. Bougart**

PART 1: DETAILED OBSERVATION

At the time of the assessment, it was observed that Feedback form AS006MF was sent out to 6 clients on 23/06/2026 and received 6 responses, but no evidence of analysing the feedbacks in order to improve the management system and customer service as per ASDP001 point 4.4

Signed (Representative):

Signed (Team Leader / Inspector): A. Bougart

MAJOR: [X] MINOR: [ ]

Reference No. of relevant Guide / Standard / Requirement: **ISO/IEC 17025 requirement 8.6.2**

Date: **08/04/2026**

PART 2: ROOT CAUSE ANALYSIS

(Provide an analysis of the extent and cause of the nonconformity)

The laboratory's document ASDP001 lacked a structured analysis and reporting mechanism, leading to a breakdown in the transition from data collection to system improvement. Therefore the identified rootcause is incomplete system documentation.

PART 3: CORRECTIVE ACTION TAKEN

(Clearly indicate what corrective action was taken, and attach supportig evidence of implementation)

- Immediate analysis of the feedback forms received have now been done on excel analysis form FB01-evaluation of customer feedback
- Daument ASDP001 has been revised. Point 4.4 now includes the evaluation of the feedback from customers on spreadsheet FB01
- Relevant personnel have been made aware of the changes to document ASDP001.

Date: 22/04/2026

Signed (Representative): Aponya

PART 4: CORRECTIVE ACTION VERIFIED AND CLEARED

(Comment on whether the corrective action is sufficient and appropriate)

Date:

Signed: Assessor / Inspector/Expert:

PART 5: FOLLOW-UP AT NEXT ASSESSMENT

(Comment on the implementation of the corrective actions)

Date:

Signed: Assessor / Inspector/Expert:

What went wrong?

- Feedback forms from clients were received from 6 clients, but there was no evidence of analysis to improve the system or customer service

Why was the analysis not done? The feedback data was filed away as 'received' without being ~~so~~ summarized or reviewed for trends.
Why was it filed away? The laboratory's current documentation did not have a dedicated slot for "feedback analysis" outside of the annual Management Review.
Why wait for the Management Review? The staff interpreted the requirement as an annual task rather than a continuous improvement task that should happen as feedback arrives.
Why was there no continuous analysis? ASDP001 point 4.4 was too vague; it required feedback to be sought but did not provide a template or a specific timeframe for the analysis of that feedback.

Reason: The laboratory's document ASDP001 lacked a structured analysis and reporting mechanism, leading to a breakdown in the transition from data collection to system improvement. Therefore, the cause is incomplete system documentation.

Supervisor: Maponya

ROOT CAUSE ANALYSIS FORM

IRQ NO: ARI9

It was observed that feedback form AS006MF was sent out to clients on 23/04/2026 and received 6 responses, but no evidence of analysing the feedbacks in order to improve the management system and customer service as per ASDP001 point 4.4.

People
- ~~Negligence~~
- ~~Oversight~~

Systems
- ~~Processes not defined~~
- Incomplete system communication
- ~~Ineffective support services.~~

Management
- ~~Lack/Inadequate of handover~~
- ~~Communication tools lacking~~
- ~~Inadequate human resource~~

SUPERVISOR

Compiled By: TMJ Maponya
Approved By: Sifiso Nyambi
Effective Date: 22 April 2026
Version: 00

Review Period: April 2025 - February 2026
Date of analysis: 22-Apr-26

1. Quantitative analysis

Survey Question Category	Total Score	Lab average
Overall Quality of service	27	4,5
Timeliness of Service Delivery	29	4,8
Clarity /Responsiveness of Communication	29	4,8
Availability of Stuff and Support	30	5,0
Technical Knowledge and Expertise	27	4,5
Conduct of Personnel (Ethics/ Punctuality)	29	4,8
Overall Satisfaction Index	30	4,8

2. Qualitative analysis

Summary of points written by customers

Client	Comments
Best Enough	I had a pleasant engagement with Azuresky Laboratory personnel, when I needed clarity on the PT Report. They helped me understand its presentation
Mfulawamnzi	Well the reports are well detailed, the are no confusion at all. I received excellent service from team.
SABS Secunda	Reports and detailed and informative

3.System Improvement Action plan

Sections where the lab has an average of 2 and below will require the lab to action a plan on addressing the weaknesses picked up by customers. This can be done using the doc 8.5 Risks and opportunities

Identified Area	Action to be taken	Responsibility	Target Date

4. Analysis Verification

Analyzed By TMJ Maponya **Signature:** **Date:** 22-Apr-26

Verified By Sifiso Nyambi **Signature:** **Date:** 22-Apr-26

Remarks: This round has no criteria needing to be actioned with the given decision rule, thereby deeming the period successful

BEFORE

	Azuresky	
AzurESky	Management system requirements	Document no: ASDP001
	Compiled by: Sifiso Nyambi - Laboratory Manager	
	Approved by: Nonhlanhla Msibi - Operations Manager	

Actions shall be planned, implemented and monitored. Feedback from external assessment shall be analysed and used to improve the management system, PT and RM activities and customer service.

4.5 Corrective Actions

An improvement form document no. ASMF 8.7.3 was developed and implemented to record the non-conformities identified. If necessary, risks and opportunities will be identified, assessed, implemented and updated.
The storage of records is managed through QMWARELIMS12 in Azuresky system folder for softcopy and hardcopy are stored in files.
Corrective actions shall form item of discussion during the management review meeting and establish improvement and effectiveness of the corrective actions implemented.

4.6 Internal audits

Internal audits plan AS005MF was developed and implemented. It shall be updated as necessary in terms of scheduling.
The criteria for an independent person to conduct an audit, a competent experienced person in the field will be consulted to conduct the internal audit however this will be dependent on the availability of funds. Operations Manager will conduct the audit in case of financial constraint.

When audit findings cast doubt on the effectiveness of the operations, or on the integrity of the PT or RM samples or the correctness of their documentation, Azuresky Management shall timely correct the deviations and shall notify in writing the customers whose activities may have been adversely affected.

4.7 Management reviews

Management review meetings shall be conducted annually in January month.
The inputs as described in ISO 17043:2023 clause 8.9.2; ISO 17034:2016 clause 8.6.1 and ISO 17025:2017 clause 8.9.2 shall be discussed.

The purpose of management review is to ensure continuing suitability and effectiveness, and introduce necessary changes and improvements

Effective date	Rev status	Next review date
04/2026	01	04/2029

Actions shall be planned, implemented and monitored.

Customer Feedback

Feedback from external assessment shall be analysed and used to improve the management system, testing, PT, and RM activities and customer service. The analysis of customer feedback will be conducted in the spreadsheet **FB01-Evaluation of customer feedback**. This will include consolidating the category scores in the quantitative analysis section to obtain the laboratory averages for each category, then adding the summaries of each customer's comments in the qualitative analysis table in section 2. If any category under the quantitative analysis section gets a score of 2 or below, it will require the lab to assess the risk of the said category using the 8.5 risks and opportunities spreadsheet and then make use of section 3 to identify the area needing improvement, the action to be taken after risk analysis, the responsible personnel and the target date of the action. A score of 3 will require management to visually & verbally monitor the affected area and a score of 4-5 will warrant a successful period for the lab.

4.5 Corrective Actions

An improvement form document no. ASMF 8.7.3 was developed and implemented to record the non-conformities identified. If necessary, risks and opportunities will be identified, assessed, implemented and updated.
The storage of records is managed through QMWARELIMS12 in Azuresky system folder for softcopy and hardcopy are stored in files.
Corrective actions shall form item of discussion during the management review meeting and establish improvement and effectiveness of the corrective actions implemented.

4.6 Internal audits

Internal audits plan AS005MF was developed and implemented. It shall be updated as necessary in terms of scheduling.
The criteria for an independent person to conduct an audit, a competent experienced person in the field will be consulted to conduct the internal audit

Department: Management

Memorandum no: 008

Position: Lab Supervisor

Date: 22/04/2026

Title: Notice of changes to ASDP001, 4.4 (Customer feedback)

Personnel are hereby notified of the changes to the quality manual, ASDP001, ~~Lab~~ TMJ clause 4.4 (Customer feedback). After receiving feedback from customers, personnel are requested to perform the evaluation of the feedback from each customer during the round using spreadsheet FB01 - Evaluation of customer feedback. The spreadsheet consolidates the feedbacks to give an average result on the said categories in order to evaluate the performance of the lab.
