ASEV-01 05/26

INITIAL IMPACT EVALUATION FORM

Linked NC number: _____

Complainant: _____

Date of assessment: _____

Technical Impact Screening

Screening Question	Assessment Criteria	Findings/ Observation
Data integrity check	Does this issue potentially affect other clients' reports or previous batches?	
Equipment/Method Check	Was a specific piece of equipment or method involved that is currently in use for other samples?	
QC Performance	Was the quality control (CRM/Duplicates) for the affected batch/sample within acceptable limits?	

Based on the screening, is the incident a systemic failure or an isolated incident_____

☐ **Low Risk (Isolated Incident):** No previous recurrence in the demarcated monitoring period. No immediate threat to other technical data.

☐M**edium/High Risk (Systemic/recurring):** Issue has occurred within the monitoring period or indicates a failure in a critical quality control aspect/system. Proceed to full Risk Assessment.
