ADDENDUM 1: Amendment Record 10

1. Purpose and Scope

The purpose of this document is to define the fees payable the by South African National Accreditation System (SANAS) accredited organisations. This document covers all fees payable to SANAS as from date of issue. This document is valid until 31 March 2026.

For services not contained in this document please contact SANAS for a quotation. Please note that this is an estimate document only and individual quotations will be given to all applicants based on this document.

2. Definitions and References

SANAS PM01	SANAS Policy Manual
SANAS A01	References, Acronyms and Definitions
SANAS R51	Suspensions, reductions, withdrawals and re-instatement of accredited or GLP/GCP compliant organisations

3. Application, Pre-assessment and Initial Assessment Fees

NOTE: *Application fees are not refundable upon cancellation of application. The CAB shall make full and final payment of all Fees payable prior to the commencement of the Accreditation process.*

3.1	***Application Fees***	
	New Application fee Laboratories, Verification/Repair Bodies, Inspection Bodies and Providers of Proficiency Testing Schemes, Blood Transfusion Services, B-BBEE, GLP and GCP Facilities (includes Documentation Review, excludes travel and accommodation)	R 13 826
	New Application fee –Satellite, Mobile and Regional Laboratories and Branch Offices (excludes travel and accommodation)	R 3 398
	Review of resubmitted documentation (Laboratories, Verification/Repair Bodies, Inspection Bodies and Providers of Proficiency Testing Schemes, Blood Transfusion Services GLP, GCP and B-BBEE Rating Agencies	R 8 748
	Note: Where Documentation Review takes more than 1 day the applicant will be charged at a rate of R4 954.00 per additional day	
	Application fee Certification Bodies first program (includes Documentation Review)	R 21 726
	Additional Technical Assessor document review	R 1 042
	Each additional programme applied for at the same time	R 12 979
	Review of resubmitted documentation (Certification bodies)	R 12 979
	Application for Extension to Scope of Accreditation (New and existing field)	R 3 974
	Application for Extension of Scope – non-critical scopes (Desk Review)	R 8 748
	Printed copy of SANAS document manual.	R 1 509
	(Manuals are available free of charge from the web site www.sanas.co.za)	

3.2	***Pre-assessments***	
	Pre-assessment visit Laboratory/Inspection Body, Proficiency Testing and Certification Bodies per day (one assessor for one day) excludes travel, excludes Documentation Review. *Note: No report is provided on a pre-assessment visit with the exception of Inspection Bodies.*	R 18 426

©SANAS

	Additional assessor units per day * (In some Regulated Fields of Accreditation in Inspection, a Technical Assessor is required to join the team on pre-assessments).	R 12 698
3.3	***Initial Assessments***	
	Note: An assessor unit is one assessor for one day or part of a day.	
	Laboratories, Proficiency Testing Scheme Providers and B-BBEE Rating Agencies:	
	Minimum fee (includes two assessor units) *	R 39 208
	Additional assessor units per day *	R 12 698
	Note: The initial assessment will be done by a minimum of 2 assessors, i.e. 1 Team Leader and 1 technical assessor. However, the inclusion of more technical assessors/experts will depend on the number of the facility's disciplines and the scope of tests.	
	Evaluation of laboratory personnel per assessor per day	R 12 698
	* Excludes travel and accommodation costs where applicable	
	Inspection Bodies:	
	Minimum fee (includes two assessor units) *	R 39 208
	Additional assessor units per day *	R 12 698
	* Excludes travel and accommodation costs where applicable	
	Verification / Repair Bodies:	
	Minimum fee (includes two assessor unit) *	R 39 208
	Additional assessor units per day excludes expenses	R 12 698
	* Excludes travel and accommodation costs where applicable	
	Certification Bodies:	
	Individual quotations are given for certification bodies based on the scope of accreditation applied for and the size of the organisation. It is made up of a base fee and assessors units required. Critical scopes are to be witnessed prior to being included in the scope of accreditation.	
	Minimum fee (includes two assessor unit) *	R 62 467
	Additional assessor units per day *	R 14 807
	* Excludes travel and accommodation costs where applicable	

4. Annual Fees

SANAS fees are issued in April of each year and cover the period until the end of March of the following year. These annual fees are charged whether a surveillance or re-assessment is conducted or not during that year. Accredited facilities that do not make payment by 30 days of statement or fail to make an arrangement to pay the annual fees will be placed into suspension as terms are strictly 30 days from statement.

A facility that receives SANAS accreditation, or an extension that takes it into a new category during the SANAS financial year (from April to March), is liable for annual fees calculated on a pro-rata basis.

©SANAS

4.1 Laboratories (excluding medical laboratories), Proficiency Testing Scheme Providers and B-BBEE Rating Agencies

The annual fees are made up of a base fee, which includes the cost of the Team Leader (TL) and Technical Assessor (TA) for one day.

Base fee two assessor units	R 39 208
Each additional assessor unit	R 12 698
Each additional field	R 5 078

An assessor unit is required for at least each discipline to be accredited provided the discipline can be adequately assessed in one day.

A field is where a different expertise is required to assess.

Annual Fees for Satellite laboratories are charged at three fifths (3/5) of the equivalent annual fee.

Examples of fee calculation for a laboratory:

A small laboratory with one discipline (e.g. microbiology or force), where the scope of work applied for can be assessed in one day, would cost R 39 208. This would allow for the Team Leader and one technical assessor to assess the laboratory over a single day. If the scope of work applied for was such that it would take the two assessors another day, the fee would be R 39 208 + R 25 396 for the additional day spent at the laboratory by the two assessors.

A laboratory requiring more than one technical assessor with different areas of expertise due to its scope of disciplines would require three assessor units as a minimum. For example, a Team Leader together with two technical assessors may be appropriate for two separate technical areas/fields. The minimum fee would therefore be R 39 208 + R 12 698 for the additional technical assessor for one day. In addition, there would be an additional cost of R 5 078 because of the additional technical area/field giving a total of R 56 984. If this same laboratory had a size of scope of accreditation that required each of the assessors to spend an additional day at the laboratory, the fee now would be R 56 984 + R 38 094 = R 95 077.

4.2 Medical Laboratories

The annual fees are made up of a base fee, which includes the cost of the Team Leader (TL) and Technical Assessor (TA) for one day.

Base fee two assessor units	R 39 208
Each additional assessor unit	R 12 698

Laboratories, which are assessed every second year, are charged at a rate of half (1/2) the fee charged every year.

Note: Should such a laboratory withdraw accreditation in any 1 year, the laboratory is liable for half (1/2) the fee based on when they were last assessed.

Examples of fee calculation for a laboratory:

Where the number of assessor units is less than 12, a base fee of R 39 208 would be charged for the first 2 units and an additional amount of R 12 698 would be charged for every additional unit.
E.g. Group that has 3 units, fees will be calculated as follows:

(If assessed annually) R 39 208 + R 12 698 = R 51 906

A laboratory that is to be assessed every 2nd year requiring more than 2 Technical Assessors and a Team Leader due to its scope of disciplines would require 3 assessor units. The minimum annual fee would be:

©SANAS

(If assessed every 2 yrs) R 39 208 + R 12 698 = R 51 906 = R 25 953

If the assessor units are greater than 12 then the first 12 will be calculated as above and the same process will be followed for the remaining assessor units. An additional fee of R 12 698 will be charged for all groups containing more than 12 units.

E.g. Group that has 10 labs with 20 assessor units, fees will be calculated as follows:

For 1st 12 units: R 39 208 + (10 X R 12 698) = R 166 186
For remaining 8 units: R 39 208 + (6 X R 13 698) = R 115 395
Total = R 281 581 + R 12 698
(If assessed annually) = R 294 279
(If assessed every 2 yrs.) = R 294 279/2 = R 147 139

4.3 Certification Bodies

The annual fees are made up of a base fee, which includes the cost of the two assessors for one day.

Base fee two assessor units	R 62 467
Each additional assessor unit	R 14 807
Each additional field	R 5 078

An assessor unit is required for at least each discipline to be accredited provided the discipline can be adequately assessed in one day.

A field is where a different expertise is required to assess.

4.4 Inspection Bodies

The annual fees are made up of a base fee that includes the cost of the Team Leader (TL) and a Technical Assessor (TA) for one day.

Base fee two assessor units	R 39 208
Each additional assessor unit	R 12 698

4.5 Verification / Repair Bodies

The annual fees are made up of a base fee, which includes the cost of the Team Leader (TL) and a Technical Assessor (TA) for one day.

Base fee two assessor units	R 39 208
Each additional assessor unit	R 12 698

©SANAS

5. Payment of Fees

Failure to pay annual fees by the stipulated date, may ultimately result in accreditation / GLP compliance being withdrawn as per R51 “Suspensions, reductions, withdrawals and re-instatement of accredited or GLP/GCP compliant organisations”.

All other services will be invoiced by SANAS to the facility before any service or assessment has been rendered and will need to be paid within the SANAS payment timeframe of 30 days from statement or prior to the assessment (whichever one comes first).

If a service or assessment has been confirmed and subsequently cancelled by the CAB, the CAB will be held liable for any costs incurred by SANAS. This includes, but is not limited to, expenses related to travel, accommodation, administrative arrangements, and any other costs directly associated with the planned service or assessment. SANAS reserves the right to recover these costs from the CAB to ensure accountability and maintain the integrity of the assessment process.

6. Facilities outside South Africa

Facilities outside South Africa applying for accreditation or already accredited, are required to pay for the travel costs, accommodation costs, subsistence costs and any other costs deemed necessary by SANAS for the assessment team or SANAS staff to conduct any type of assessment or accreditation service on-site (e.g. pre-assessment, certificate handover, initial assessment, surveillance assessments, additional visits, re-assessments, evaluation of signatories etc.)

These costs will be invoiced by SANAS to the facility before the service or assessment has been rendered and will need to be paid within the SANAS payment timeframe of 30 days from statement.

A withholding tax will be charged on all services rendered to facilities outside South Africa where it is applicable.

The annual fees for facilities outside South Africa relate only to the scope of accreditation and do not cover any travel costs, accommodation costs, subsistence costs or any other costs. The facility will be charged the costs of the assessors’ travel, accommodation and subsistence as per the country in which the assessment will be conducted. The facility will be liable for these costs as well as travel day fees of R1 277 per assessor unit per travel day.

A 7% contingency fee is charged for all services rendered outside South Africa.

7. Fees for Extension of Accreditation

required to cover the expanded scope.

An extension that requires special arrangements will be charged the following rates:

For the first day (this includes one assessor unit), excluding any travel and accommodation costs.	R 18 426
Each additional assessor day, excluding any travel and accommodation costs.	R 12 698

For certification bodies:

Each additional assessor day, excluding any travel and accommodation costs.	R 18 426

©SANAS

8. Fees for Assessing Technical Competence

The fees for assessing technical competence (Technical Signatory status) of laboratory personnel, will be charged the following rates:

Each assessor day, excluding any travel and accommodation costs.	R 18 426
Each additional assessor day	R 12 698

9. Additional Visits

Any other additional visits that are arranged at the client's request will be charged the following rates:

Each assessor day, excluding any travel and accommodation costs	R 18 426

For certification bodies:

Each additional assessor day, excluding any travel and accommodation costs.	R 18 426

For B-BBEE Rating Agencies:

Each additional assessor day, excluding any travel and accommodation costs.	R 13 040

10. Clearance of Non-conformances

In those instances where SANAS requires that clearance of non-conformances be verified by an additional on-site visit, these will be charged the following rates:

For the first assessor unit, excluding travel and accommodation costs	R 18 426
Each additional assessor unit	R 12 698

For certification bodies:

Each additional assessor day, excluding travel and accommodation costs	R 14 807

For B-BBEE Rating Agencies:

Each additional assessor day, excluding travel and accommodation costs	R 13 040

11. Organisations in Suspension

Suspended facilities that do not apply for an extension of the suspension period prior to the expiry of the 3-month suspension period shall be charged 10% of their annual fee and shall not have accreditation re-instated until this is paid. This administrative fee is in addition to the normal fees charged for re-instatement of accreditation.

Facilities remain liable for all fees whilst in suspension.

12. VAT

©SANAS

No VAT will be charged as SANAS has been deregistered as a VAT vendor by SA Revenue Service effective 1 April 2005.

13. Refund of Moneys Paid

If monies have been paid to SANAS for an initial assessment or an additional visit for an extension to accreditation, and the visit is cancelled at the request of the facility prior to the scheduled date, then the following applies to the monies received by SANAS:

- The application fee is non-refundable;
- The fee for the visit is refunded less any expenses already incurred by any arrangements for the visit;
- On withdrawal of accreditation, pro-rata calculated if payment of the full annual fees is made
- The facility to contact SANAS Finance in writing requesting a refund of monies paid;
- Credit on account only available for 1 calendar year. If not claimed, it will not be refundable to the client.

14. Scope of Accreditation

Facilities will be charged R1,227.00 upon request for a revised certificate pertaining to the following reasons:

- Additional certificates;
- For any addition to or removal of tests or calibrations from a discipline on the scope of accreditation between assessments;
- Changes to personnel on the scope of accreditation;
- Reprinting of lost scopes and certificates of accreditation;

Except when the revised scope of accreditation is issued subsequent to a scheduled assessment.

15. Fees for International Assessors

Where a facility opts to use an assessor from outside of South Africa, under conditions as allowed for in the Terms and Conditions for Accreditation, the facility will be liable for the full costs of travel, subsistence, accommodation and the rate charged by the assessor charges per day of work.

Note: Rates for assessors from outside of South Africa are not included in the SANAS fee structure, and are rates as agreed to between the facility and the assessor.

Assessors from outside of South Africa are used in the same manner as Technical Experts and shall therefore be accompanied by a SANAS qualified assessor.

©SANAS

ADDENDUM 1: Amendment Record

Proposed By:	Section	Change
Board of Directors	All fees	Applied 3% increase to fees
Accreditation/Finance	3	Insert paragraph regarding cancellation of planned assessment

©SANAS
