Curriculum Vitae of Sifiso Bernard Nyambi

Name & Surname : Sifiso Bernard Nyambi

ID number : 9704076373081

Driver's License : Code 10

Contact details : 0721741852/ 0673643805 sifisobernardnyambi@gmail.com

Residential Address : 5384 Weaver Street Ext 8, Witbank ,1035.

Education

- ADVANCED DIPLOMA IN CHEMISTRY (VAAL UNIVERSITY OF TECHNOLOGY)
- NATIONAL DIPLOMA ANALYTICAL CHEMISTRY, CUM LAUDE (VAAL UNIVERSITY OF TECHNOLOGY)

Experience

LABORATORY MANAGER JUNE-DECEMBER 2024 (UAS)

- Implementation and management of the QMS.
- Staff management by scheduling, training, mentoring, and disciplining employees.
- Ensure that control charts are available and up to date.
- Coordinate quality controls, analysis and testing.
- Ensure competency of all personnel and availability of resources.
- Review internal procedures and ensure that they are aligned with current standards.
- Authorization and approval of test reports, evaluate results, and reporting as a SANAS approved TS in accordance with R03 document.
- Enforce maintenance, calibration, and validation of all equipment used.

ACTING TECHNICAL SUPERVISOR JUNE 2023-DECEMBER 2023 (SIBONISIWE)

- Plan, organize, lead and control the analytical function.
- Managing, Supervising and measuring the key performance areas of Supervisors, Shift Leaders, Technicians and Operators.
- Assist with the maintenance of the Quality System.
- Compile a monthly Quality System report for the Lab Manager and do invoices.
- Cease to carry on with work that may affect the quality (integrity) of services and report the situations to higher authority to act.
- Initiate a formal improvement request when a deviation of the system occurs, possible improvements are identified or when nonconformity is identified.
- Compile washability reports.
- Ensure that results sent to customer are accurate and reliable and take accountability in the event of dispute between the lab and clients.

LABORATORY SUPERVISOR (SIBONISIWE COAL LABORATORY SERVICES, ONSITE LABS) 2020 APRIL- JUNE 2023

- Initiate, investigate and complete improvement request (IRQs).
- Evaluate results and send test reports.
- Maintenance and calibration of all lab instruments and equipment.
- Conduct internal audits.
- Co-ordinate and evaluate the Proficiency Testing program.
- Drawing and updating control charts.
- Ensure that all laboratory functions conform to the ISO 17025 QMS and contractual requirements.
- Control and ordering of consumables and maintaining associated records and stock levels.
- Tailor procedures and processes for reliability and maintainability- manage the doc change process as per QMS.
- Liase with clients.
- Compile daily reports of samples to clients.
- Ensure compliance of SHEQ and MHSA.

Skills and abilities

- In-depth knowledge of laboratory Quality Management System and the requirements for conformity with ISO/IEC 17025.
- Good general understanding of SANAS and accreditation.
- Outstanding attention to detail.
- Good coordination and management skills.
- Acquainted with Laboratory Information Management System (LIMS).
- Accountability and team player.
- Advanced computer literacy.
- Sound knowledge on analytical techniques used in chemistry such as, HPLC, GC, NMR, Sephadex chromatography, titration, UV-Vis, infra-red, potentiometry.
- Can work independently and as well in a team.
- Quality control and reliability.
