ORGANISATION: AzureSky (Pty) Ltd

CAB's DOCUMENTATION RECEIVED: 4th December 2025

REVIEWERS: **TL:** Ms Charmaine Morobe
TA(s): Ms Nozibusiso Chiliza

1. INTRODUCTION

The supplied documentation, Co.Reg.No.2024.223777.07, Management system documents, Instrument data and maintenance logs, PT results, personnel records and data of AzureSky (Pty) Ltd Testing laboratory was reviewed against the requirements of ISO/IEC 17025 and SANAS and ILAC requirements.

2. GENERAL COMMENTS

The documentation submitted was deemed to be assessable and appeared to be in general compliance with the requirements of the ISO/IEC 17025 standard. Whether the CAB's actual operational procedures are reflected in the Quality documentation can only be determined on-site at the initial assessment. Please note that for the initial assessment sufficient records generated by the system must be available to demonstrate implementation of the system to give confidence that the conformity assessment body (CAB) can consistently ensure the quality of its results.

3. RECOMMENDATION

The deviations listed (recorded in blue and red) in the attached supporting checklists should be incorporated into the management system manual or relevant procedures, as applicable, after which an initial assessment of the CAB may be arranged.
