Approved by:	Nonhlanhla Msibi -Operations Manager	

Contracts, tenders, and customer requests checklist

The checklist has been prepared to aid in all contractual matters so that management can have a structured guidance when entering contractual obligations with potential clients.

Criteria	Accept (tick)	Decline (cross)
Request is clearly defined?		
Objectives of the PT/ RM production/ Testing are defined and agreed		
Shipping requirements defined		
Testing, PT and/or RM falls within labs' scope of production?		
Lab has technical capability?		
Validated methods are available?		
If need be, are externally provided products and services?		
Metrological traceability achievable?		
Uncertainty of measurement estimable?		
Homogeneity & stability assessable?		
Are subcontractors (if any) competent?		
Resources (personnel/equipment) sufficient?		
Legal and confidentiality terms agreed?		

CONTROLLED DOC

Additional Notes for ISO 17025; ISO 17034 and ISO 17043 Conformance:

- Include a procedure for contract review in QMS
- Maintain records of all accepted and declined requests
- Ensure impartiality in decision-making (avoid commercial pressure)
- Conduct internal audits to verify contract review effectiveness
- If a request or contract is amended after the PT scheme is underway, the same review process shall be repeated and amendments communicated to all affected parties.

Rev no	Content Changed	Reason for the change	Date modified
01	Addition of testing (17025) to the document	To accommodate the testing side of the lab	13/05/2026
