F 03-09

NON-CONFORMANCE, CORRECTIVE ACTION AND CLEARANCE REPORT

SANAS No.: **T1195**

Organisation Name: **Azuresky Laboratory**

NC Report Number: **AB06**

Area/Scope Assessed: **Management Requirements**

Assessor / Inspector / Expert: **A. Bougart**

PART 1: DETAILED OBSERVATION

At the time of the assessment it was observed that ASMF 8.7.3(Improvement Form) was not used for NC01/2025 as per ASFM 7.16 point 5.

Furthermore, the lab's NCW register has incorrect closing dates and NC dates. For example NC01/2025 was identified on 05/09/2025 but on the NCW register was registered on 05/01/2026 and closed on 06/01/2025.

Signed (Representative):

Signed (Team Leader / Inspector): A. Bougart

MAJOR: [X] MINOR: [ ]

Reference No. of relevant Guide / Standard / Requirement: **ISO/IEC 17025 requirement 7.10**

Date: **08/04/2026**

PART 2: ROOT CAUSE ANALYSIS

(Provide an analysis of the extent and cause of the nonconformity)

→ System redundancy and ambiguity

→ Communication and audit retrieval

→ Register interpretation

PART 3: CORRECTIVE ACTION TAKEN

(Clearly indicate what corrective action was taken, and attach supportig evidence of implementation)

→ System simplification

→ Procedural update

→ Record Presentation Training

Date: 15/04/26

Signed (Representative):

PART 4: CORRECTIVE ACTION VERIFIED AND CLEARED

(Comment on whether the corrective action is sufficient and appropriate)

Date:

Signed: Assessor / Inspector/Expert:

PART 5: FOLLOW-UP AT NEXT ASSESSMENT

(Comment on the implementation of the corrective actions)

Date:

Signed: Assessor / Inspector/Expert:

Additional Space for NC's

IRQ no: AB06

Extent of the NC: The issue was identified as a documentation interpretation error. A review of the QMS showed that while the required information for NC01/2025 was captured on form SANAS F03-09, the presence of a second, redundant form (ASMF 8.7.3) in the procedure created confusion for both the laboratory personnel and the assessor.

Root cause:

1. System redundancy & ambiguity: Procedure ASMF 7.17 (5.5) provided "either/or" option for documentation (ASMF 8.7.3 or SANAS F03-09). This dual option approach led to inconsistent application across different NCs & created a system weakness where intended record-keeping path was not immediately clear to the assessor.
2. Communication and audit retrieval: During the assessment, laboratory personnel could not effectively demonstrate the compliance of NC01/2025 because the "or" distinction in the procedure was not highlighted, and the corresponding form was not presented as the primary record for that specific entry.
3. Register interpretation: While the NCR register dates are accurate according to the lab's internal tracking (Identification: 05/09, completion: 05/09, clearance: 06/09, follow up 07/01/2026) the layout did not facilitate quick verification during the audit, leading to the perceived inconsistency.

Corrective action

1. System simplification: To eliminate future ambiguity, CAB has officially removed ASMF 8.7.3 for the MS. All future NCs and improvements will be documented exclusively on the SANAS F03-09 form.
2. Procedural update: Update 7.17, remove "or" language to explicitly say that SANAS F03-09 is the sole form used to close NCs
3. Record presentation training: Personnel have been briefed on updated procedure.

BRAINSTORMING FORM

IRQ no: AB06

Brainstorming team

Sifiso Nyambi
Tshepo Mabonya
Rectumelo Maleka.

What went wrong? ASMF 8.7.3 form not used for NC01/2025 in accordance to ASMF 7.17.(5). Furthermore; the NCR register has incorrect dates of closing and NC dates (e.g.; NC01/2025; date identified 05/09/2025 but NCR register 05/01/2026 and closed 06/01/2026).

Why 1? Why ASMF 8.7.3 form not used?
There was a form redundancy, an alternative form was used to close the NC (F03-09)

Why 2? Why was the form redundancy?
Lack of proper planning as the forms to use lab initially drafted the two forms to use as one but did not oversee potential problems could arise.

Supervisor:

ROOT CAUSE ANALYSIS FORM

IRQ NO: ABO6

At the time of the assessment it was observed that ASMF 8.7.3. form was not used for NC01/2025 as per ASMF 7.17 section 5. Furthermore, the CABS New register has incorrect closing dates of NC dates. E.g.) NC01/2025 was identified on 05/09/2025 but on the New register was registered on 05/01/2026 and closed on 06/01/2025.

Department: Management

Memorandum no: 004

Position: Laboratory Supervisor

Date: 15/04/2026

Title: Updates to NCW procedure 7.17

Kindly take note of the updated procedure 7.17 which now states that for processing of NC's the lab will now employ document #03-09 Sanas document. All documents which can be used for non conformances are clearly listed in section 6 of procedure ASMF 7.17. The use of any other document than those which are listed in this section [nu] ~~or~~ is strictly prohibited.

Before

AzurESky	MANAGEMENT OF NON-CONFORMING WORK		
	Document no: ASMF7.17		
	Compiled by:	Sifiso Nyambi - Laboratory Manager	
	Approved by:	Nonhlanhla Msibi - Operations Manager	

4. Identification of non-conformity

Sources may include:
- Observation during routine work or supervision
- Internal audits
- Stability/homogeneity test failures
- Customer complaints
- Out-of-spec test results
- Incorrect CoA's or labelling errors

5. Initial Actions

- Immediately halt use of affected PT or RM/CRM or analysis or process step.
- Label the product or isolate the equipment with "NON-CONFORMING" tags.
- Notify the Laboratory/Operations Manager.
- Use ASMF 8.7.3 or SANAS F03-09 Improvement Action request form.

6. Documentation

The Improvement Action request form shall log the following:
- Unique NCW ID
- Date/time of detection
- Process stage affected
- Description of non-conformance
- Responsible person(s)
- Immediate action taken (containment), If necessary, ensure notification to customers within 24 hours of recording an NCW
- Signature of person reporting

ADDED:
- Root cause(s) identified
- Corrective action(s) taken
- Evidence of implementation

Effective date	Rev status	Next review date
02/2026	03	02/2029

AFTER

- Incorrect CoA's or labelling errors

5. Initial Actions

- Immediately halt use of affected PT or RM/CRM or analysis or process step.
- Label the product or isolate the equipment with "NON-CONFORMING" tags.
- Notify Management.
- Use SANAS F03-09 non-conformance, corrective action, and clearance report form, root cause analysis form AS001MF, AS004MF Brainstorming form to document the process of non-conforming work.

6. Documentation

The process of opening, processing and closing a non-conformance shall document the following:

- SANAS F03-09 which documents the following:
  - Date of detection
  - Unique NCW ID
  - Area /scope assessed/affected
  - Responsible person & assessor
  - Detailed observation of the non-conformance
  - Root cause analysis linked to form AS004MF
  - Corrective action taken, Corrective action verified/cleared and follow up on next assessment.
  - Given the NCW rises from a customer complaint, the lab shall send an acknowledgement email.

ADDED:

- Root cause analysis form (AS001MF)
- Brainstorming form (AS004MF)
- Evidence of implementation
- Additional Space for NC's (AS009MF)

AFTER

AzurESky	MANAGEMENT OF NON-CONFORMING WORK		
	Document no: ASMF7.17		
	Compiled by:	Sifiso Nyambi - Laboratory Manager	
	Approved by:	Nonhlanhla Msibi - Operations Manager	

12. Revision

Revision no	Content changed	Reason for the change	Date
02	Update the timelines for the closing of NCs.	NC raised by SANAS	06/02/2026
03	No content changed, just additions to address SANAS findings. (Please see sections 6,8,9,10,11 for the updates- look for "added" subheadings).	To address NC's raised by SANAS.	11/02/2026
04	Notification of NCW reported to lab/operations manager.	• Management is equally responsible for investigating, correcting & closing NCW.	09/04/2026
	No change, only additions.	Added section 9 follow-up and closure process.	
	Responsibilities of the lab supervisor & Lab manager	Merged the responsibilities between the two positions.	
	Responsibilities of Operations Manager	Perform the follow-up process on non-conformances	
	Section 6 has been updated to be clear on the documents used to clear non-conformances raised.	Section 6 proved ambiguous regarding the listed documents, causing confusion during audits.
